Download EZ Mask: Welcome to Photoshop Drop. We started writing about Photoshop Drop more than a year ago now and what we've seen since then is a rapidly growing market of people who want a version of Photoshop that allows them to work on cloud-based platforms like Google Drive, Microsoft OneDrive and dropbox. This is in particular for photographers and graphic designers as it allows them to work on large images and bring them to the web or smaller designs while on the go. With all that in mind, we have come up with a new collection of tutorials that make it easy for you to try out using Photoshop drop. There are 11 tutorials in all so if you're ready to start your journey with Photoshop drop then this is the right place to start! Photoshop Drop Tutorials All right, we've made it through the first batch of tutorials and got things started for you. Let's continue with the tutorials for this round! File Organization So, you want to start organizing your work in Photoshop. Well, there are a few reasons why you might want to do that but the key one is that you want to make sure you keep on top of things. If you're anything like us, you probably have a full set of tutorials or books in your library and you'd like to do a good job of managing that. So, the first step is to open up the Collections feature. Click on Collections from the Window Menu. To create a new collection, click on the New Collection button. This brings up the Collections dialog box. Here you can rename the collection and add any new elements to it. You can also add sub-collections to the main collection. Once you've got the collection named as you want, click on the Create button. Now you can close the Collections dialog box. Photoshop Drop Tutorial 01: File Organization File Management If you're anything like us, you probably have a lot of files in your library and want to keep them all organized.
