KEYMACRO is a small utility that will let you easily manage your passwords. You can use it to encrypt and decrypt text files with a particular password, or to encrypt and decrypt access to a text editor (with a copy of the program). Everything is configured on the Tools tab, and in this tab you can also create multiple configurations. When a file is encrypted, a text file with a *.key extension is generated. When the encrypted file is opened, the program will ask for the password of the owner of the file. If the password matches the one you have chosen on the Tools tab, the file will be decrypted, and the program will open your file with the text editor defined in the configuration. Using Batch File Conversion is a fast and easy way to convert images from one format to another. The converter supports several formats, including PDF, PS, JPG, GIF, TIFF, and BMP. Batch File Conversion allows you to batch convert multiple images to a new format. When you select the target format you want to convert to and select your source and target images, the converter automatically converts the source images. Batch file conversion is made simple by the easy-to-use interface. The program is also extremely easy to configure and has a very large database of supported formats and supported file extensions. The program supports only a small number of image formats, however, and the image quality is not as good as you can get when working with a more powerful software like Photoshop or Photoshop Elements. Customized Converter The converter is able to convert image files to formats for your needs, with the possibility of exporting as much information as your selected image

contains. The program supports many file formats, including, for example, Adobe Illustrator, Excel, Excel for Windows, Freeware for Windows, Freecell, Freehand, Flash, Gnu-Emacs, FrameMaker, HTML, HTML e PS, HTML e PS, HTML e MSWord, HTML e MSWord, HTML e Word, HTML e WPS, HTML e XHTML, Hypercard, Icon, JPEG, Kippen, Lantatara, Libranet, Lotus Notes, Lotus Symphony, Lotus WebNotes, M4, MIME, Mobile Document, Microsoft Word, Microsoft Word e PowerPoint, Microsoft Word e PowerPoint, Microsoft Word e Word Perfect, Microsoft Word e WordPerfect, Microsoft Word e Powerpoint, Microsoft Word e Powerpoint, Microsoft Word e WPS, Microsoft Word e WPS 81e310abbf
