---

drop • Take a control over the files via a permissions tab • Hide your files from prying eyes • Automatic file name changing to a restricted name • Support for a list of shortcuts to hide the files and folders • Set a password to secure the program

Easy File Hider License: Easy File Hider is completely free and as such does not impose any

---

limitations on the functionality. Windows File Hider is a desktop software app designed to help you hide your files and folders. The application is wrapped in a simple, clean and straightforward interface.

There should be no configuration issues to any kind of users, even those less familiarized with his type of

---

software. Simply add the items that you wish to hide into the main window and then hide them with one click of the mouse. Files can be imported using either the browse button or the drag-and-drop support. Once listed, details such as full path, name, type and status (visible or hidden) can be analyzed. Hide your files from prying

---

eyes Windows File Hider gives you the possibility to hide multiple items at the same time. The files remain listed even after they were hidden, allowing you to access them at any time. More than that, it comes with a search feature that enables you to easily find any item. Furthermore, you can set the program to automatically rename the files

---

upon hiding them, and to prevent access from the recent file list (the original names will be restored upon making them visible again). Additional features For even better protection, you can set a password that will be required every time when you try to access the program. It supports a list of shortcuts for most of its functions to make

---

it easier to use. You can employ a combination of hotkeys, such as "Ctrl + N" to add new files, "Ctrl + D" to add folders, "Ctrl + H" to hide the selected items, and "Ctrl + V" to show the hidden files.

Last few

**Easy File Hider Crack**

Easy File Hider is a desktop

---

software app designed to help you hide your files and folders with as little effort as possible. It is designed to eliminate all the hassles of trying to hide files and folders in Windows without using a 3rd-party tool like Ultra Hide or even the Windows XP Control Panel. It works on the principle of hiding items without making any changes

---

to the files or folders themselves, and is as easy to use as it is powerful. Easy File Hider Features:

- Easy installation process – No need to download and install an additional application. Simply choose whether you want to run it automatically at Windows startup, or to remove it from the Add/Remove Programs list,

---

and follow the installation instructions on the screen. ·

Smartly organized and easy-to-use interface – The application is wrapped in a simple, clean and straightforward interface.

There should be no configuration issues to any kind of users, even those less familiarized with his type of software. · Simply add the

---

items that you wish to hide into the main window and then hide them with one click of the mouse. · Files can be imported using either the browse button or the drag-and-drop support. · Once listed, details such as full path, name, type and status (visible or hidden) can be analyzed. · Hides multiple items at the same time. The

---

files remain listed even after they were hidden, allowing you to access them at any time. · Search feature that enables you to easily find any item. · Automatically renames the files after they are hidden.

The original names are restored upon making them visible again. · In addition, you can set a password that will be required every time

---

when you try to access the program. · Supports a list of shortcuts for most of its functions to make it easier to use. You can use a combination of hotkeys, “Ctrl + N” to add new files, “Ctrl + D” to add folders, “Ctrl + H” to hide the selected items, and “Ctrl + V” to show the hidden files. · In addition to that, it can also be closed

---

from the taskbar. This means that it does not remain visible on the taskbar, and is thus out of your way when you have a whole lot of files to hide. Easy File Hider Review:

The application is well-executed and fully functional.

Hiding files and folders is
