I have a simple navigation bar that simply contains two links with different classes: Home Tutorials The main problem is that the text color for both links is the same, and I want to change it to white so it highlights the link when the user hovers it. I've tried CSS: .navLink { color: red; } .navLink:hover { color: white; } ... but it didn't work. A: Probably you want this? a.navLink:hover { color: white; font-weight: bold; } You're trying to apply an extra property (hover) on the pseudo-element, so you can't do it that way. Check it out on the W3 docs. Q: How to get values from Map>> in java.util.stream? Consider the following Java API: import java.util.Arrays; import java.util.Map; import java.util.stream.Collectors; public class Main { public static void main(String[] args) { Map> map = new HashMap(); map.put("a", new HashMap
