About the players: The Xperia Player app works on the principle that every lossless audio file is equivalent to one recording which is compatible to different formats, like normal MP3, MP4, Ogg, FLAC, APE and the music files from Amazon, Google, Deezer, YouTube or Spotify. We strongly recommend the OGG Vorbis files and Flac files to provide a high quality sound. Premiata Forneria Marconi -Big Bang Per un amico has become an iconic album in PFM's discography and in the whole RPI sub-genre and I believe it totally deserves it. The great detail of this record is how different is from Storia di un minuto: while the debut album showed an exquisite collection of symphonic arrangements, Per un amico dared to get more into powerful rock structures and very sensual jazz patterns. The symphonic kind of music didn't disappear, this album actually has lots of them, but it got a much more eclectic and complete selection of rhythms. This album is very in the vein of several English bands like Genesis, Yes, and Gentle Giant but absolutely filled with the most original Italian lyrics and musical passages that sometimes flirt with Classical Music and unique Mediterranean influences. I won't go further because there is almost nothing that hasn't been said of this album yet, so if you don't know it just go and enjoy it.

Premiata Forneria Marconi - Oltre la Prima Cima Musikverlag Hans Schöpp, Munich, 1967 Per un amico is a monumental compilation album of some of the most famous classical musicians in Italy. The album presents the orchestra from the first three albums (Cavallo di Troia, Oltre La Prima Cima and Quarta Cima) along with the title track from the fourth album, Quarta Cima, a 1966 instrumental from The Magics, and the cover of the fourth album Oltre La Quarta Cima. I would love to hear more albums like this one! Jet Lag, from 1977, had much of the original PFM spirit with a jazz inclination, akin to groups such as ARTI + MESTIERI, though somewhat more low-key. Suonare Suonare came out in 1980, and saw PFM turning back toward their original sound, from the style of Passpartu. On PFM - Live In Japan 2002 (Tokyo) the band plays classic tunes from the Seventies. A must for all prog fans...!
